

## General Aviation Fly-In

Boshears SkyFest & Fly-In 2015 is pleased to invite General Aviation aircraft with their pilots, families and friends. All who come in an aircraft get into the air show free. Parking will be on asphalt unless the ramp becomes full and parking on the grass is required. All aircraft operators are required to bring their own chocks & tie-down equipment. Basic camping facilities are available for camping overnight.

A goody bag is available for each aircraft that flies in, while supplies last!

For your arrival to KDNL, please be sure to contact the Air Boss on 123.05. For further assistance, you can contact Augusta Approach on 126.8. They will appreciate it. You will need to arrive before 1:30 to ensure the airport is still open. The airport will reopen at 4:30 when the show is over.

Please review NOTAMS before arriving. You can also review KDNL on [AirNav](#) for more specific information.

The Fly-In is sponsored by EAA 172. Our members will be directing ground traffic and greeting your aircraft. Please enjoy the show and let us know how we can make it better for you.

Hope to see you there!
